LETTER OF INTRODUCTION

Dear Valued Customers and Partners,

On behalf of the Board of Directors of CTF Import-Export Trading Joint Stock Company, we sincerely thank our valued customers and partners for your trust and continued support throughout our journey.

Building on our foundation in trading and import-export, CTF has continuously expanded its capabilities and developed comprehensive solutions in smart agriculture and livestock, construction and industrial equipment, renewable energy, and energy storage.

With technology, quality, and efficiency at the core of our development, CTF aims to become a trusted provider of end-to-end solutions for high-tech farms and industrial projects, accompanying our customers from consultation and equipment supply to implementation and operational optimization.

We are committed to continuous innovation, strengthening our capabilities, and building long-term partnerships and sustainable value with our customers and partners.

Sincerely,

BOARD OF DIRECTORS
CTF IMPORT-EXPORT TRADING JOINT STOCK COMPANY.

CONNECT TRANSFORM FLOURISH

ABOUT US

- Born from the ambition to create sustainable value for Vietnam's agricultural sector, CTF was established as a "key piece for success" for businesses seeking a reliable and trusted partner. With a strong foundation backed by Viet Thai Group and an experienced team of professionals, CTF is committed to providing comprehensive solutions in livestock farming, environmental treatment, and project construction, contributing to the development of a modern, safe, and environmentally friendly agricultural industry.
- We believe that our customers' success is the true measure of CTF's value and reputation. Through superior quality, dedicated service, and a commitment to long-term cooperation, CTF strives to be a trusted partner, growing sustainably together with our customers through every project and every stage of development.
- CTF operates a modern warehouse in Dak Lak covering more than 2,000 m², dedicated to the storage of raw materials, equipment, and products serving livestock farm projects and import-export activities. Equipped with a modern management system, the warehouse ensures that goods are safely stored and efficiently handled, enabling fast and convenient inbound and outbound operations. This facility provides effective support for silo projects and agricultural supply chains. Our warehousing and logistics infrastructure demonstrates CTF's strong logistics capabilities, helping ensure project timelines and service quality for our customers.

CONNECTING RESOURCES, CREATING VALUE

Partnering with customers through tailored solutions, professional expertise, and a commitment to long-term collaboration.

OUR VISION & MISSION CORE VALUES

VISION

- We are more than just an import-export trading company; we are a strategic partner and comprehensive solution provider for investors.
- We understand the challenges across multiple industries — from selecting high-tech livestock equipment in the era of AI to supplying specialized machinery and equipment for large-scale construction projects.

MISSION

CONNECT THE RIGHT RESOURCES – DELIVER THE RIGHT SOLUTIONS – CREATE THE RIGHT VALUE.

- CTF focuses on connecting customers with the right technologies, equipment, products, and partners, while providing flexible solutions tailored to the specific needs and scale of each project.
- We place customer success at the heart of everything we do, continuously enhancing our professional expertise, service quality, and execution capabilities to work alongside our customers in creating more efficient, smarter, and more sustainable facilities, farms, and production systems.

CORE VALUES

- **QUALITY**

Committed to providing high-quality products, services, and solutions that meet the specific requirements of each project.

- **TRUST**

Building trust through transparency, responsibility, and a strong commitment to every transaction and partnership.

- **EFFICIENCY**

Putting customer success at the heart of our work, optimizing resources, costs, and timelines to deliver practical and sustainable value.

BUSINESS AREAS & SERVICES

SMART & HIGH-TECH LIVESTOCK FARMING

High-Tech Livestock Farming Ecosystem: Providing comprehensive, closed-loop automation solutions for next-generation farms. The seamless integration of Artificial Intelligence (AI), the Internet of Things (IoT), and stringent biosecurity standards helps maximize productivity while significantly reducing operating costs.

IMPORT-EXPORT SERVICES & CONSTRUCTION EQUIPMENT SUPPLY

Comprehensive Import-Export Solutions: Optimizing costs and lead times through end-to-end import-export services. Strong capabilities in the supply and installation of advanced machinery, equipment, and technical systems for the livestock and modern industrial sectors.

RENEWABLE ENERGY & ENERGY STORAGE SOLUTIONS

Green Energy & Energy Storage Solutions: Providing consulting, design, and installation services for advanced solar power systems integrated with Battery Energy Storage Systems (BESS). Optimizing operating costs while ensuring a stable, reliable, and sustainable power supply for large-scale agricultural and industrial projects.

KEY PRODUCTS & TECHNICAL SOLUTIONS

- ## CENTRAL & AUTOMATED FEED SILO SYSTEM

A fully enclosed and automated feed storage and delivery solution, streamlining the entire process from storage to feeding. It helps prevent moisture, mold, and feed loss, significantly reduces labor costs, and ensures the highest standards of biosecurity across the farm.

- ## INDUSTRIAL-SCALE COMPOSTING & ANIMAL CARCASS PROCESSING MACHINES

Advanced environmental treatment solutions that efficiently convert livestock waste into high-quality organic compost while ensuring the safe and thorough processing of animal carcasses in compliance with industrial standards. A core solution for helping farms develop a circular economy and meet stringent environmental regulations.

- ## SMART FARM MANAGEMENT SYSTEM (AI BOX LITE & IOT MONITORING)

A digital farm management platform integrating Artificial Intelligence (AI) and Internet of Things (IoT) sensors. It enables 24/7 monitoring of environmental parameters such as temperature, humidity, and harmful gases, supports early disease detection, automatically regulates barn conditions, and provides real-time alerts via mobile devices.

- ## AUTOMATED SEMEN COLLECTION & ANALYSIS SYSTEM AND POULTRY VACCINATION SOLUTIONS

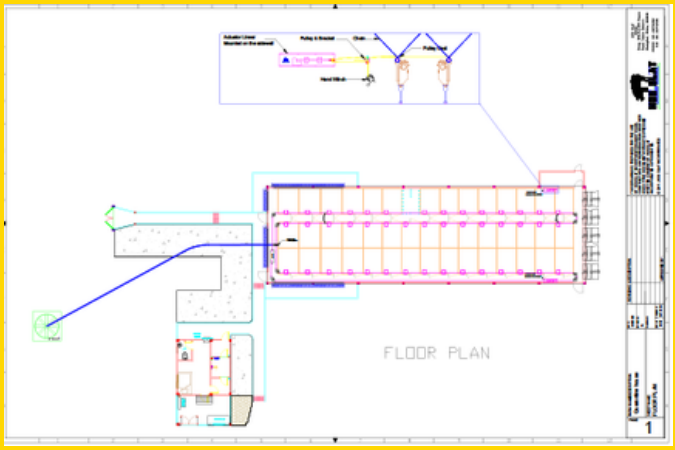

Advanced environmental treatment solutions that convert livestock waste into organic compost and safely process animal carcasses in accordance with industrial standards, supporting circular farming and strict environmental compliance.

SUPPLIERS & PARTNERS

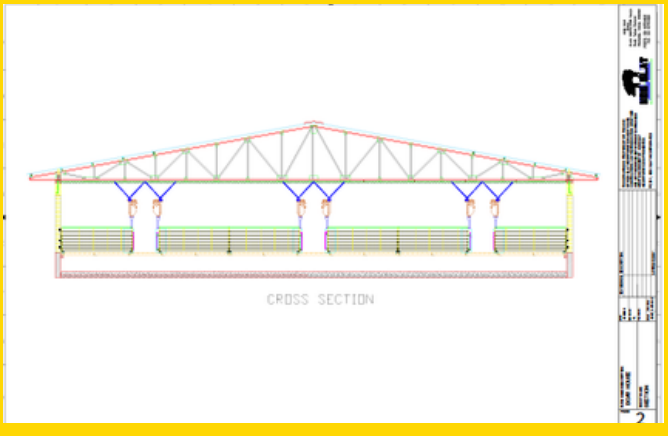

"CTF accompanies customers through a comprehensive and rigorous process, from site assessment and system design to the delivery of optimized solutions. We are committed to creating real value and precisely meeting the practical needs of our partners. Below are actual images of our systems and equipment, as well as strategic collaborations between CTF and leading global livestock technology companies."

- **SITE SURVEY & SYSTEM DESIGN**

- **FOCUS ON TRAINING & DISTRIBUTION PARTNERSHIPS**

CERTIFICATIONS & PROFESSIONAL EXPERTISE

CTF holds a range of authorized distribution certificates and professional training certifications from reputable brands and manufacturers in the livestock industry. These credentials demonstrate our technical expertise, service capabilities, and commitment to delivering solutions that meet international standards.

STRATEGIC PARTNERS & KEY CUSTOMERS

We believe that sustainable partnerships are the foundation of every success. CTF is proud to work alongside trusted partners, pursuing shared goals and creating long-term value together.

FEATURED PROJECTS

IN 2026

1. AI BOX PROJECT IN PARTNERSHIP WITH CARGILL

- Implementation of a smart farm management system integrating AI BOX and IoT sensors.
- Designed to digitize livestock farming processes and enable 24/7 monitoring of environmental conditions and animal health.
- CTF's solution automates farm operations, optimizes performance, enhances biosecurity, and improves overall farm productivity.

2. EASO 3 PROJECT – DAK LAK

- CTF supplies and installs a comprehensive range of specialized technical equipment for company, supporting large-scale farm operations.
- The project aims to optimize technical processes from input to output, ensuring stable, integrated, and closed-loop operations in compliance with biosecurity standards.
- CTF enhances farm automation capabilities in the Central Highlands, reducing operating costs and improving long-term production efficiency.

3. AUTOMATED VACCINATION SYSTEM (HIPRA)

- Implementation of a high-tech automated vaccination system in collaboration with HIPRA.
- The solution ensures precise vaccine dosing and consistent vaccination speed, enhancing overall efficiency and accuracy.

4. HIGH-CAPACITY ANIMAL CARCASS PROCESSING SYSTEM

- Supply and installation of an industrial-scale animal carcass processing system for Cargill.
- Efficiently and safely processes large volumes of animal by-products and livestock waste in compliance with stringent environmental and biosecurity standards.

5. EASO HIGH-TECH PIG FARM

- CTF supplies and installs specialized technical equipment for large-scale pig farm operations.
- The solution optimizes farm processes, ensures stable and closed-loop operations, and enhances biosecurity.
- Improves automation, reduces operating costs, and increases long-term production efficiency.

QUALITY COMMITMENT & SERVICE PROCESS

1. CTF provides end-to-end services, supporting customers from consultation and solution selection to importation, supply, implementation, handover, and maintenance. Every stage is strictly controlled to ensure that products and equipment meet the required quality and technical standards.

CONSULTATION PROCESS → IMPORTATION → EXECUTION → MAINTENANCE

2. CTF is committed to delivering on schedule, maintaining transparency throughout the cooperation process, and providing proactive support whenever issues arise. After handover, our team continues to provide after-sales service, maintenance, and technical support, ensuring stable operations and fostering long-term partnerships with our customers.

01 CONSULTATION
Understanding customer needs & recommending the right solutions.

02 IMPORTATION / PROCUREMENT
Sourcing & ensuring compliance with technical standards.

03 EXECUTION
Coordinating transportation, installation & on-time handover.

04 ACCEPTANCE
Quality inspection & operational support.

05 AFTER-SALES
Maintenance, technical support & long-term partnership.

CTF Commitment: On-Time Delivery - Compliance with Standards - Quality Assurance - Long-Term Partnership
